Reasons for Allowance

1. The present claims are deemed allowable over the references of record since the references of record fail to disclose or render obvious a magnetic assist layer which has magnetic isotropy.

While the prior art of record disclose a magneto-optic recording medium comprising a recording layer, a non-magnetic layer and a magnetic assist layer, the prior art of record fails to disclose or render obvious a magnetic assist layer which has magnetic isotropy and applicants have provided sufficient evidence that magnetic assist layers do not inherently possess magnetic isotropy (*pages 19 – 22 of the as-filed specification*).

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Examiner's Comments

3. The drawings were received on August 16, 2004. These drawings are acceptable.
